

640 Bark

641 Pale Birch

642 Blackthorne

643 Elm Grey

644 Willow

Product Name	FOREST
Construction	Hand woven
Product description	Two-tone high and low loop
Suitability	Heavy domestic / Medium contract
Gauge or pitch	31.49 / 10 cm
Stitch state or rows	29.52 / 10 cm
Tuft density	92,960 /m ²
Pile height above backing	3-6mm
Total pile weight	900g/m ²
Total carpet weight	2,240g/m ²
Pile fibre content	100% Wool
Backing materials	Cotton
Widths available	4m
Colour fastness:	
• Light	N/A
• Shampoo	
Abrasion resistance	On application
Moth proofing	Woolmark CP-4: 2013 – Moth proof to above level 5
De-lamination force (Bonding Strength) ASTM D3936	2.50 lbs/inch
Tuft withdrawal force: ISO 4919	On application
Tog rating	1.55
Flammability ratings: BS 4790 & BS 5287 hot metal nut test	Low radius effect of ignition
Stock range colour references:	<div>640 Bark</div> <div>641 Pale Birch</div> <div>642 Blackthorn</div> <div>643 Elm Grey</div> <div>644 Willow</div>

Part of our Nature Collection, Forest is a tufted rib loop, made from blended heather yarn. Suitable for most areas in the home.

All the above specifications are subject to normal manufacturing variations.

The company may make changes or improvements to products at anytime without notice.

Batch to Batch Colour Matching: Whilst every effort is made to ensure that the colours are matched as accurately as possible from one batch to another, an exact match, particularly with natural undyed wools, cannot be guaranteed. If you wish to have an exact colour, please request a dye batch cutting from your authorised dealers before ordering stock.

Heathered Carpets: Heathered carpets are created using random blends of colour, resulting in coloured flecks which are a natural feature of a heathered carpet. The blending process may also result in some linearity which is not always visible on samples and, again, is an inherent design of this type of carpet and not considered a manufacturing fault.

Hand woven Carpets: Hand woven carpets are an artisan product and, as such, can have irregularities and imperfections within the carpet. No two carpets will be identical, unlike mass produced, machine carpet. Any irregularities found within a hand woven carpet are to be celebrated and not considered a manufacturing fault.

Shading: Carpets may develop light and dark shaded areas, particularly in heavy traffic areas, this is called 'shading' and is caused by pile pressure. This is not considered to be a manufacturing defect and can occur on most textiles.

Installation Riviera Home UK carpets should always be sold and professionally installed in full accordance with BS:5325, using a good quality underlay.

Care & Maintenance: If installed and maintained correctly, your carpet should give you years of good service. We recommend that spillages are spot cleaned immediately and that you use a professional cleaning contractor to look after your carpets.
