

511 Shadow

512 Taupe Suede

513 Wheatgrass

515 Pebble

516 Wild Fennel

517 Silver Cloud

Product Name	HAMPSTEAD
Construction	Hand woven
Product description	Random tip shear
Suitability	Heavy domestic / Medium contract
Gauge or pitch	70.86 / 10cm
Stitch state or rows	35.43 / 10cm
Tuft density	251,056 /m <sup>2</sup>
Pile height above backing	5mm
Total pile weight	1,650g/m <sup>2</sup>
Total carpet weight	2,960g/m <sup>2</sup>
Pile fibre content	80% New Zealand wool & 20% British wool
Backing materials	Cotton
Widths available	5m
Colour fastness:	
• Light	5
• Shampoo	3-5
Abrasion resistance	In excess of 25,000 rubs
Moth proofing	Woolmark CP-4 2013-level 3
De-lamination force (Bonding Strength) ASTM D3936	7.65 lbs/inch
Tuft withdrawal force: ISO 4919	3.41 lbs/inch
Tog rating	1.4651
Flammability ratings: BS 4790 & BS 5287 hot metal nut test	Low radius effect of ignition

Hand woven random tip shear will feel rich and warm under foot in any home. Manufactured in 6 stylish and on-trend shades.

All the above specifications are subject to normal manufacturing variations.

The company may make changes or improvements to products at anytime without notice.

**Batch to Batch Colour Matching:** Whilst every effort is made to ensure that the colours are matched as accurately as possible from one batch to another, an exact match, particularly with natural undyed wools, cannot be guaranteed. If you wish to have an exact colour, please request a dye batch cutting from your authorised dealers before ordering stock.

**Heathered Carpets:** Heathered carpets are created using random blends of colour, resulting in coloured flecks which are a natural feature of a heathered carpet. The blending process may also result in some linearity which is not always visible on samples and, again, is an inherent design of this type of carpet and not considered a manufacturing fault.

**Hand woven Carpets:** Hand woven carpets are an artisan product and, as such, can have irregularities and imperfections within the carpet. No two carpets will be identical, unlike mass produced, machine carpet. Any irregularities found within a hand woven carpet are to be celebrated and not considered a manufacturing fault.

**Shading:** Carpets may develop light and dark shaded areas, particularly in heavy traffic areas, this is called 'shading' and is caused by pile pressure. This is not considered to be a manufacturing defect and can occur on most textiles.

**Installation** Riviera Home UK carpets should always be sold and professionally installed in full accordance with BS:5325, using a good quality underlay.

**Care & Maintenance:** If installed and maintained correctly, your carpet should give you years of good service. We recommend that spillages are spot cleaned immediately and that you use a professional cleaning contractor to look after your carpets.
